Phone: 732-363-3633 **Fax:** 732-363-7337

Dear Calvary Academy Parents;

Our school nurse is employed at Calvary Academy for the full school day. There may be times when she is out or unavailable; therefore, I am delegating additional staff members to administer Epipens, or Glucagon injections. The Main Delegates will be Mrs. Stephanie Cruz and Mrs. Laura Dafflisio. The School Nurse will provide training to these delegates.

On the rare occasion the School Nurse is unavailable and your child requires Medication to be administered **other then Epipens, or Glucagon** the Parent or Legal Guardian must come to school to administer the medication if needed.

All medications to be administered to students in school require signed Doctor's orders each school year. If you would like your child to have ANY medications, including over the counter meds such as Advil or Tylenol, during school hours please complete the following form.

If your child requires asthma medication in school please complete the following Asthma Treatment Plan form.

If your child requires an Epipen in school please DO NOT use the following medication form for Epipens. You must use the designated **Epipen FARE form** and consent letter. All forms are on our website.

Prescription medications must be provided in the original box with an Rx pharmacy label attached with your child's name. Please check the date for expiration before sending medications to school.

Any additional questions you may have please call or email our School Nurse @ nurse@calvaryacademy.org.

Sincerely,

Stephanie Cruz
Principal

AUTHORIZATION FOR MEDICATION TO BE GIVEN DURING SCHOOL HOURS

The following section is to be completed by the PARENT:

Child's Name _____
Last First Sex Date of Birth

School Grade

Physician's Name Address Telephone

I request that my child be assisted in taking the medicine(s) described below

Asthma Treatment Plan Patient/Parent Instructions

The PACNJ Asthma Treatment Plan is designed to help everyone understand the steps necessary for the individual patient to achieve the goal of controlled asthma.

1. Patients/Parents/Guardians: Before taking this form to your Health Care Provider:

Complete the top left section with:

- Patient's name
- Patient's date of birth
- Patient's doctor's name & phone number
- Parent/Guardian's name & phone number
- An Emergency Contact person's name & phone number

2. Your Health Care Provider will:

Complete the following areas:

- The effective date of this plan
- The medicine information for the Healthy, Caution and Emergency sections
- Your Health Care Provider will check the box next to the medication and circle how much and how often to take it
- Your Health Care Provider may check "OTHER" and:
 - ❖ Write in asthma medications not listed on the form
 - ❖ Write in additional medications that will control your asthma
 - ❖ Write in generic medications in place of the name brand on the form
- Together you and your Health Care Provider will decide what asthma treatment is best for you or your child to follow

3. Patients/Parents/Guardians & Health Care Providers together:

Discuss and then complete the following areas:

- Patient's peak flow range in the Healthy, Caution and Emergency sections on the left side of the form
- Patient's asthma triggers on the right side of the form
- For Minors Only section at the bottom of the form: Discuss your child's ability to self-administer the inhaled medications, check the appropriate box, and then both you and your Health Care Provider must sign and date the form

4. Parents/Guardians: After completing the form with your Health Care Provider:

- Make copies of the Asthma Treatment Plan and give the signed original to your child's school nurse or child care provider
- Keep a copy easily available at home to help manage your child's asthma
- Give copies of the Asthma Treatment Plan to everyone who provides care for your child, for example: babysitters, before/after school program staff, coaches, scout leaders

**This Asthma Treatment Plan is meant to assist, not replace, the clinical decision-making required to meet individual patient needs.
Not all asthma medications are listed and the generic names are not listed.**
